Tesla ETF Time Again

Elon Musk's Tesla (NasdaqGM: TSLA) hit an all-time high Tuesday in advance of the electric carmaker's after-the-close earnings report Wednesday.

Year-to-date, shares of California-based Tesla are up nearly 36%. Even that run, which comes on the heels of the stock more than quadrupling last year, two analysts boosted their price targets on Tesla Tuesday to \$215 and \$222 respectively.

....

A mere seven ETFs feature Tesla among their top-10 holdings, according to S&P Capital IQ data. Three are equal – weight funds, meaning the stock is just a small percentage of each portfolio and another, the **PowerShares Global Clean Energy Portfolio (NYSEArca: PBD)**, ...
