## 3 ETFs to Buy Now to Capitalize on the Coming Blue Wave

**PBW** – *The installation of President-elect Joe Biden’s administration on January 20 is expected to lead to huge fiscal stimulus packages that will benefit the clean-energy and infrastructure industries. .... ETFs such as Invesco WilderHill Clean Energy (PBW), ... , and ... provide perfect exposure to these industries and as such, we think, should be solid long-term bets.*

After four years of a Donald Trump-led ..., U.S. is about to see Democratic leadership of the U.S. House of Representatives, the U.S. Senate, and the White House.

It is no secret that Joe Biden is a pro-climate heavyweight. In fact, the primary focus of his election campaign was a \$2 trillion so-called “Green ... Deal”, which aims to reshape the country’s industrial sector and business operations over the next couple of decades. He has also advocated the need for comprehensive infrastructure development to accelerate and sustain ... structural reforms.

### **Invesco WilderHill Clean Energy ETF ([PBW](#) - [Get Rating](#))**

PBW is an assorted clean energy ETF that invests in companies that .... The ETF’s proprietary selection process is different from the median clean energy ETFs in that it invests in companies that have indirect exposure to the renewable energy sector. It has approximately \$2.88 billion in assets under management (AUM), and its major holdings include ReneSola Ltd. (SOL), Lithium Americas Corp. (LAC) and NIO Limited (NIO).

.... PBW has gained 243.9% over the past year and 182.3% over past six months. ....
